

Mr. GURUSHANTHA R G

Dynamic Software Developer | Expertise in Backend Development, Web & App Design | Skilled in Cutting-Edge Technologies

📍 Bengaluru | 📞 +91 9538227415 | ✉️ guru22ca@gmail.com | 📅 DOB : 20-11-2001

Profiles

 [Gurushantha R G](#)

 [GurushanthGowdar](#)

 [Portfolio](#)

Summary

Versatile Software Engineer with expertise in full-stack development, data engineering, and mobile app development. Proven ability to adapt to new technologies and challenges, delivering high-quality solutions across diverse projects. A strong team player with excellent communication and problem-solving skills.

Experience

SUBEX
Senior Software Engineer
<https://www.subex.com/>

September 2023 - Present
Bengaluru

Senior Software Engineer at Subex specializing in Backend Development, Data Engineering, and Cloud Technologies. Designed high-performance data pipelines using NiFi, Java, Spring Boot, and microservices, achieving a 5x increase in data processing from 2B to 10B records/day. Reduced NiFi pipeline deployment times from 3 hours to 16 minutes. Optimized inter-service message processing, improving Kafka message handling from 5-20 seconds to nanoseconds. Developed features and telemetry for ETL pipelines to enhance performance and monitoring. Experienced with Docker, Kubernetes, AWS, Azure, Spark, Kafka, Trino, Hive, S3, and PostgreSQL.

Mercedes-Benz
GET (Graduate Engineer Trainee)
<https://www.mercedes-benz.co.in/>

August 2023- September 2023
Bangalore

Graduate Engineer Trainee at Mercedes-Benz, where I gained practical experience in full-stack development using React.js and Node.js during my tenure in Bangalore (August 2023 - September 2023)

Trando
Software Engineer Intern

September 2022 - January 2023
Remote

Contributed to the development of an educational application for competitive exam candidates, enabling live streaming, tests, and courses. Utilized Agora SDK for real-time communication, MongoDB for data storage, and Express/Node.js for backend development. Focused on teamwork and hands-on technical experience in building a scalable, real-time platform.

Education

SJB Institute of Technology
Information Science
8.9 CGPA

July 2020-June 2023
Bachelor of Engineering

SDM PU college, Ujire
PCMB
88 %

June 2017 - March 2019
Pre-university

Projects

Arogya Seva
Developed a web application for healthcare services using Flask, Python, HTML5, CSS3, and MySQL
https://github.com/GurushanthGowdar/AROGYA_SEVA

August 2022

Dice App
Created a mobile dice game using Flutter and Dart. Developed a user-friendly interface with interactive animations.Gained hands-on experience in mobile app development using the Flutter framework
https://github.com/GurushanthGowdar/Flutter_DiceApp

June 2023

UPSC Education Application
Contributed to the development of an educational platform for UPSC exam preparation.Utilized Agora SDK for real-time live streaming of classes.Developed a robust backend using Express.js and Node.js, and integrated MongoDB for efficient data storage.Gained valuable experience in teamwork, real-time communication technologies, and building scalable applications.

September 2022 - January 2023

Awards

Rookie of the Year
Recognized for exceptional performance and awarded "Rookie of the Year" at Subex's Annual Event 2024, highlighting significant contributions and rapid professional growth within the company

Tech Titans
Recognized for exceptional technical expertise and innovative contributions, awarded 'Tech Titans' at Subex's Annual Event 2024

Skills

Languages Java, Python, C (Familiar),TypeScript	Backend Technologies Java, Spring Boot, Node.js, Microservices	Front-End Technologies React.js, Next.js, Angular
Front-End Technologies HTML, CSS, JavaScript	Frameworks Flask, React.js, Next.js, Angular	Mobile Development Dart, Flutter
Databases MySQL, MongoDB, PostgreSQL	Data Engineering NiFi, Apache Kafka, Apache Spark, Apache Hive, Trino, PostgreSQL	Cloud Platforms AWS, Azure
Big Data Hadoop, Hive, HBase, Spark	Containerization & Orchestration Docker, Kubernetes
